# Connect to
Google Cloud

Enhance the **speed**, **reliability** and **performance** of your connections to Google Cloud with Console Connect.

We make connecting directly to Google Cloud easy —

Using the Console Connect Network-as-a-Service platform, it couldn't be simpler for your business to directly connect to Google Cloud products and services.

As a trusted Google Cloud Interconnect Partner, Console Connect offers extensive reach to Google Cloud locations worldwide using our own high-performance global network.

Through a single management portal, you can build and scale your connectivity to Google Cloud and all other major cloud platforms – in real-time and on-demand.

View Google Cloud regions & zones on our website

The faster, smarter way to **manage your connectivity**

Easy setup

Console Connect does the heavy lifting with connecting your on-premises network to Google Cloud.

Improved performance

Avoid the public internet and experience a more consistent and secure connection to Google Cloud.

Simple to manage

See real-time pricing for connectivity to Google Cloud and self-provision and manage your interconnection through our platform or via our API.

Scalability

Access multiple Google Cloud regions or connect seamlessly between different cloud providers.
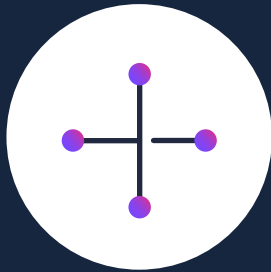

Reduce network costs

Save money on egress charges and adjust bandwidth to meet the needs of your workload.

From device to cloud

Connect your devices directly to Google Cloud to support remote working or IoT applications.

Choose your
connectivity model

Point-to-point Layer 2

Click and connect between your Access Port and Google Cloud location of choice.

Find out more

Layer 3 CloudRouter®

Use CloudRouter® to dynamically route traffic between devices, office locations, applications and clouds.
